## **DOMENICHINO, Domenico** **Zampieri, detto Il**

Bologna 21.X.1581 – Naples 6.IV.1641

Italian painter and draughtsman. Like a number of leading Bolognese painters, he experimented with coloured chalk drawings which may have used pastel. The record in the Jullienne sale probably refers to a pastel by Guido Reni which was paired with a sanguine by Domenichino in the same lot; the typography is confusing.
