## **HILL, Samuel**

*fl.* Ireland 1743–c.1770

Irish portraitist in crayons, cited by Pasquin. He taught drawing at Portarlinton, and travelled through the provinces. Although no pastel is known, a signed and dated (“S. Hill pinxit 1757”) oil painting at Attingham Park (National Trust, inv. 609038), of the unrelated Thomas Hill (1693–1782), is presumably by the same artist.
