VERONESE, Paolo Caliari, detto il

Verona 1528 – Venice 19.IV.1588

As Mariette noted in the Crozat catalogue, the great Venetian painter was prolific draughtsman, systematically making studies for his paintings in chalk with white highlights. The Kansas sheet is not in Cocke 1984; whether it is a pastel in the sense of this work has not been established. It may in fact be by another Veronese artist, Giovanni Battista Marcola (c.1711–1780).
